

# LONDON BUSINESS PHONE - HOSTED IP-PBX

Realize tangible benefits and cost savings immediately  
Internet Telephony and Unified Communications  
Solutions that Work for your Business

**Ideal for smaller business with less than 25 telephone extensions**

**Realize Savings of 50% for monthly subscription fees**

**Let your high speed internet service work to save you \$\$**

- Hosted VoIP system replaces your aging analog phone system
- Cost effective from 2 to 25 subscriber extensions

## **Reduce Telephone Operating Expenses**

- Eliminate long distance and WATS charges
- Eliminate multiple rollover lines with IP trunks
- Pay per Use – based on call minutes only
- Choose the appropriate VoIP phones for your needs and budget
- Low monthly fees cover all system operating overheads, upgrades, and maintenance, 24/7 technical support
- Rapid payback, return on investment

## **Unified Communications – Improve Office Productivity**

- Route all of your communications to a single answer point
- Receive and listen to voice mail from your email
- Link your Smart phone to your desk phone – SIP client
- Link all your appliances with Microsoft Exchange™
- Integrate with CRM applications using calling ID

## **Self Administration and System Management**

- Easily customize features and service that suit your business needs
- Customize features and services for each extension
- Unlimited auto attendant menus and interactive voice response
- Flexible call queuing, call routing, forwarding based on rules
- Supports all PBX features and services and FAX

Monthly subscription fees start at \$10 for each telephone number and assigned extension.

Hosted PBX can be migrated to dedicated PBX with full re-use of their existing investment

IP-PBX is located in Western I.T Group's secure and conditioned data-center with full power and data backup.
